FIREFLY PAR 65

1. Parts

A

B

C

D

E

A. Carry bag for Firefly Par
B. Firefly Par
C. Stand bracket

D. Outer diffuser
E. Optional deflector DFS20

2. Setting up procedure

Fig. 1

Press the runner toward the center pole.
See fig. 1

Fig. 2

Make sure all the stretchers are straight and equal. If the stretchers are twisted, rotate the runner slightly until they are all straight. See fig. 2

Fig. 3

Fig. 4

Fig. 5

Rotate the attached arm on the swivel bracket anticlockwise while pressing the button attached to the ring. Locate the hole in the arm over the stud then release the button so that the stud protrudes through the hole in the arm which will lock it securely into place. See fig. 4, fig. 5 and fig. 6

Fig. 6

Screw the shoe mounting bracket to the swivel bracket as indicated.

Fig. 7

After attaching the speedlight onto the shoe, mount the assemble Firefly to a light stand or camera bracket to use.

Fig. 8

To position the flash head correctly into the softbox rear aperture. move the flash forward or backward and then secure with the locking screw.

Fig. 9

To use Firefly Par for soft light, attach outer diffuser or deflector.

Fig. 10

Soft grids can be used in addition for more directional light.

If an optional deflector is available,

Fig. 11

Fig. 12

Fig. 13

Insert a tightening bolt into a hole in the center of deflector. See fig. 11

Hold the deflector upside down and screw an extension rod onto the bolt. See fig. 12

Screw an assembled deflector into the internal pole of Firefly Par. See fig. 13
